- 1.Kruchina was killed 8.26.91. \$11 billion of CPSU vanished
- 2.Soros tanked bank of England with \$11 billion of someone's else money.
- 3.Soros was loosing high priority to NSA enrollment in markets
- 4.Someone from NSA - Mr.X most likely Clapper approached Soros around 2001 or 2002. from that point on
- 5.Soros made up for everything he lost
- 6.Soros shared developments with his FSB cobnections.
- 7.Mr.X got on a Putin hook.
- 8.Dodd Frank forces Soros to shut down fund in 2011 in order not to disclose donors.

Otherwise connection between Mr.X and Putin would be obvious to FBI
9.Clapper went to N Korea to free priest and most likely to deliver the codes to FSB.

10.I start to shake things up

- 11.Putin killles Shushukin and Sergun
- 12.Mr.X delivers blackmail files on 80 or so electors
- 13.There is a Coup in process to blackmail electors so on Dec 19th There will be enough defectors to choose Clinton.It was done by in Vatican to replace the Pope , so this is not a new game for the players.
- 14.Putin bets on uprising and Soros has motions in place to provoke such an uprising by white Trump supporters.
- 15.America enters a dark age as Putin propels Russia to Super Power.

To deflect such a scenario the following steps should be taken

- 1.House needs to be ready for emergency session on Dec 19th to denounce the Electors vote for Clinton and to ratify the November 8th results.
- 2.FBI needs to examine immidiately Soros donors prior to him shutting down the Hedge Fund and compare those donors to relatives, mistresses and best friends of top 5 NSA officials.
- 3.FBI needs to obtain a warrant to monitor each and every one of 306 of Trump electors.
- 4.Someone needs to advise Putin of existence of German files and their content.
- 5.Putin needs to be advised that those files will be published all over Russia prior to Dec 19th should he proceeds with op.

And may G-d help us

Someone need to communicate the following to Mr.President Elect:

Mr. President Elect is making a mistake by trying to appease a crowd in hope that by doing that the possibility of 37 defectors diminishes..

When making a move in a chess game one need to analyse not only the board, but also the opponent. In this case it is Soros. His whole career was build on bullying the markets to the point when investors blink and panic. And it usually worked when there is no strong player who calls his bluff.

By playing a "nice guy"

whose only desire is to make peace with everyone Mr.Trump is only weakening his position. There are only 306 players in this game. Rest of the world doesn't matter to Sores. As long as he can continue to "short" Mr.Trump and as long as Mr.Trump allows to be "shorted", the 37 number becomes more and more real. For a simple reason. A person under pressure weights the possible scenario when he or she is blackmailed. And the only thing that can keep such a person from treason is a possibility of being caught. Mr.Trumps movement all over the desk looks chaotic and thus gives Soros a powerful closing point - vote the other way and nothing will happen to you as this guy is not serious and he already is panicking.

The only way to combat Soros is for someone like Bannon to address the media with a statement that there is a possibility of Electors being blackmailed by Snowden type defectors within NSA never Trumpers. He then should state that incoming administration will investigate such cases as an attempt of a Coup and all the parties

Involved will be prosecuted. He should assure that anyone with info of such an activity should approach the FBI in exchange for a complete and fullest pardon of any crimes committed. He also need to give assurance that Mr.President Elect will not allow any blackmail files on Electors to see the daylight regardless of what in those files.

2016-11-22 22:42:45 Received

The best possible case is if prior to Bannon statement there will be a "leak" from mid-level FBI official that there is a info that a possible blackmailing of Electors is taking place and FBI is investigating.

Patreus is to deep with Benghazi.

Did anyone tell Mr.Trump what actually happened there?

If not, it is about time.

This one will require complete disclosure to American people, followed by resignation of everybody involved. Don't forget nobody can guarantee anything about OBL after Stevens.

To even talk to Patreus under circumstances is a huge mistake. And not reporting to President Elect of those circumstances is a crime

Good G-d. How naive I was. Of course Putin could not play this game without Obama in his corner.

Obama was playing Trump card all along. That is why he sabotaged Hillary campaign. That's why he didn't interfere with Comey. That's why he encouraged Comey to make his statement a week before election. That's why he so called "stomped" for Hillary with all his body massage and

In between the line massage - don't vote for here.

Now the CIA gives a legitimacy for 37 detectors. So nobody can suspect that this was all planned start to begin with.

A no Trump vote on 19th, followed by "spontenious" civil unrest on the 20th as was done in Cairo , escalated to same "sniper" killings in the crowds as was done in Kiev and you have a perfect reason for martial law. Obama is now enjoying an absolute

power in USA, and Putin secures Iran deal and Iran is now firmly in his corner as well as China, Syria firmly in his hands, Turkey and Egypt all at a sudden are his vassals and follow his rule. Only a matter of time US withdraws from Iraq and Iraq follows the suit. France and Germany pledge alliance to him.

The new world order.

NOW YOU. THE ONES IN NSA AND CIA AND FBI THAT STILL HAVE ANY MEMORY LEFT OF THE OATH THAT YOU GAVE.

IS THAT WHAT YOU CAN LIVE WITH? I KNOW FOR A FACT THAT YOU READING THIS. IS THAT THE FUTURE YOU ARE WILLING YOUR CHILDREN TO HAVE? IS THIS THE COUNTRY YOU PROMISED TO DEFEND?

And what you will do when my predictions come true? How will you live your life after? Beware that the destiny of hundreds of Russian intelligence officers killed by Putin because they accidentally run on some compromate material on him, the destiny of Team 8 seals killed on Obama's orders as well as everyone else who had any knowledge or suspicions of OBL capture and transfer to Lydia shortly after - that is your destiny.

You all destined to die under new world order.

For one simple reason.

YOU KNOW.

And nobody who knew about any dictator- be that Sulla, Stalin, Hitler or Putin

P.S The only way CIA can have an indisputable proof that Russians not only hacked to DNC and Podesta emails, but also delivered the hacked material to Assange - is if

GRU "leaked" such a proof to CIA. If that happened, then most likely the most important info was obtained by CIA after November 8th.

This is what Putins game plan after Trump clinched Republican nomination and the reasons for Putin giving the proof of his engagement with Assange to CIA

1. Most preferable end is

instability in US, martial law and President Obama in power. Putin continues to controlle American President with a blackmail files that would take years just to read.

2. Clinton becomes President and Putin secures his dominant role in a world arena, by continuing the same blackmailing strategy against Clinton's administration as he had done against Obama's.

3. Despite all the efforts Trump becomes president. Then Putin starts to build a relationship on a high note from position of a "Friend". And although Putin doesn't have a blackmail files on Trump, the fact that he "Helped"

Trump with Assange as well that he is privileged to US most secretive intelligence info, as well as most humiliating info such as CIA op to replace the Pope, NSA surveillance on US senators, congressman, Supreme Court Justice, etc in order to later using the obtained data for Obama to blackmail those politicians goes a long way. If you have any doubts emagine what publishing the emails from Rahm Emmanuel to Lerner's boss with an order to suppress Republican donors would do? Or revelation of Blackmail of Supreme Court Justice Roberts for him to change his opinion 180 degrees on Obama care?

So while a Trump Presidency scenario is a least plausible for Putin, the blackmail files on majority of US power holders as well as "You owe me " massage to Trump pretty much guarantee the Iranian deal, Syria offence, and the remapping of spheres of influence in Russia's favor.

The brilliancy of Putins game is that he is

2016-12-12 22:53:11 Received
achieving his goals in any possible scenario.

Mr. President Elect should explain to Bibi that there is not to much he can do to help Israel till January 20th. And if Obama decides to go along with Palestinian resolution he will. Bibi's calls and statements do nothing but undermine both Nataniaghu and President Elect Trump.

Both UN resolutions and Obama treason will have to be dealt with at a later day regardless of what happens between now and January 20th.

Till January 20th President Elect SHOULD avoid any moves on world arena that could be interpreted as weakness .

His call to Sisi definetly will be interpreted as weakness by many world leaders in light of Friday UN resolution.

The so called 11th our regulation and executive orders are not really an 11th hour. All that regulations and executive orders as well as Israel and Russia standoffs and remarks of winning the 3rs term are not the actions of Lame Duck President. All Obama's actions are the ones of a very active and hands on steering wheel man. OBAMA IS NOT PLANNING TO LEAVE THE WHITE HOUSE ON JANUARY 19TH.

In my last text I warned out of precaution of possible assassination attempt of President Elect Trump.

I believe it is not just a precaution anymore.

It might be a hard reality

and a last resort in what started and was supposed to be finished as "Soft Coup d'etat".

President Elect Trump should change all his scheduled events immediately. And make all his physical movements from now till the Jan 21st a matter of SAP. His Secret Service agents should be replaced. He should have FBI agents on his side along with Secret Service. If there will be an assassination attempt it has to happen between January 6th and January 13th and it has to be done with a firearm so the whole country sees it and there will be enough time to ignight the civil unrest that will fire up the entire country.

Then original martial law plan kicks in.

Politkovskaya had a cache with docs from GRU that undoubtedly tied Putin to 1999 bombings . It is hidden somewhere on internet. Ghana Cashe. Or Zhana Cashe. Depends how you pronounce her ukrainian name. She gave the instructions to Nemtsov shortly before she was killed. Nemtsov passed it to Ksenya Sobchak days before he got murdered.

After my text 2 years ago Putin disappeared for 10 days.

Sobchak was scared by FSB to live Russia. They hoped she would take with her the one thing that will be her life insurance- the Ghana Cashe. Then they would kill her and get the Cashe. It didn't work

She did take the Cashe. But it's in her brain. The code to retrieve it from internet. And they don't know who else she shared info with. She is somewhere in Europe. Find her. Get the Cashe.

She also has the partial German files with details off all the money exchanges between German and Russian companies. Yeltsin was getting anywhere between 2 and 5 percent on every deal. Putin was collecting the money and laundered it for Yeltsin. He later blackmailed Yeltsin with those files and Yeltsin surrendered power to Putin. Putin became the recipient of 2 to 5 percent per deal. Anatoliy Sobchack tried to blackmail Putin with the German files when he lost the Sant Petersburgs Election and [REDACTED] became obsolete. He wanted a cabinet position. He was found dead in a hotel room with a whore 3 days later. Ksenya was made a Kremlin Courtesan.

The one NSA program Snowden didn't disclose is S

NSA monitoring ALL the Financial Markets as the unexpected collapse of those is a threat to National Security of US. Part of that monitoring is analysing the Financials of Worlds Fortune 1500 the day those financials are prepared, weeks before the release.

Then making a strategic moves, part of which is to share such an info with Big market players like Soros and Buffet so the United Front of keeping markets movement in a desired direction is successful. The reason Snowden did not disclose this whole thing because first, he himself profited from it.

Second, and important reason is that Putin established couple of thousand Daybroker operatives making

Anywhere from \$500,000 to \$2million a year in US, Hong Kong, Germany, Great Britain, France, Japan.etc.

That's how he amassed 100 billion or so of his 200 billion personal wealth .

To: Mr.President of USA

Memo

Mr.President,

When considering the candidacy of FBI Director the most important quality should be a courage to make all steps necessary to stop a few dozens of conspirators that are actively engaged in a coup to overthrow the Democratically elected President in order to hide their status as Russian agents.

They became de facto Russian Agents after GRU obtained NSA master codes and later on kidnapped OBL from CIA annex in Benghazi.

In the beginning of 2008 GRU was able to open all types of communications from any official in US government, Including a president Obama himself, through NSA apps.

Later on GRU bought OBL from Ambassador Stevens through their Arab surrogates.

Russian President Putin was able then to blackmail American Administration on different fronts .That blackmail was used to advance Russian interests in Iran Nuclear negotiations, developments in Syria, Ukraine, etc. Vladimir Putin also used the so far unknown to public NSA app to monitor Global Financial Sectors to amass personal fortune that now exceeds 100 billion dollars.

The extend of the treason on the part of US Intelligence went so far as to Director of National Intelligence Clapper, after the NSA codes was changed following Snowden deflection, personally delivered the new NSA master codes to GRU through GRU North Korean Counterparts. North Korean Kim Jong-un then personally delivered the codes to Moscow.

In my communication on April 14th,2017 I warned US administration that - quote- Putin owes the Fat Kid a favor for flying the codes to Moscow. - end of quote.

On April 20th Putin send Russian troops and equipment to North Korea in direct defiance of President Trump plans to deal with Fat Kid with All The Options On The Table. That was Putin returning a favor to

Kim Jong-un for delivering the codes to Moscow. Codes was originally delivered to North Korea by Clapper during his visit to North Korea to negotiate the release of American Citizen Reverend Kim.

The head of FBI should be able to bring up immediate charges to all officials involved in Benghazi cover-up and guilty of giving orders to kill Americans in order to cover up the OBL transfer to Benghazi and his subsequent kidnapping by Russian Surrogates.Those main officials, guilty of conspiracy to kill Americans, including Team 6 Navi Seals , Rolling Stones Reporter Michael Hustings, Ambassador Stevens, who although committed an act of treason should be tried and not ordered to be killed in botched CIA op, contractors who died in Benghazi because they refused to follow orders to stand down and other people with knowledge of the OBL -Benghazi affair are

1.Then President of USA

Barack Obama

2.Then CIA director David Patreus

3.Then US Homeland Security Adviser and later on then CIA director John Brennan

4.Then Secretary of State Hillary Clinton

5. Then Director of NSA Admiral Alexander

6. Then Director of National Intelligence Clapper

And later on, after my visit to FBI office [REDACTED]

7. Then Director of FBI Comey.

Director Comey was not involved till later on and his involvement was only to extend of making himself valuable by not investigating the Benghazi and thus promoting himself to a position of one of main players in the conspiracy to undermine the results of 2016 Presidential Elections regardless of the results and after the coup failed his role was to provide a shield to conspirators once I blew up the original plan of soft coup.

The new head of FBI should have the guts to bring charges immediately. And because OBL-Benghazi case is essentially a crime committed within US Military, Majority of Conspirators including President Obama could should be tried by Military Tribunal.

Assange is not in any way, form or fashion associated with Russians. Shortly after Ken Lewis provided Assange with All the devastating data on BOFA, Putin realized that the not so thorough investigator would be able to notice billions of Russian money

channelling through. The thorough investigator would be able to trace the money to Putin. And while the whole Swede theater was originally a CIA op, Putin, behind the curtains made sure that Assange will stay in the embassy.

FBI should label the investigation into the targeting and shooting of Scalise and other GOP officials as a Terrorist Act. FBI has legal and moral obligation to investigate what radicalized Hodgkinson - which TV channels he watched most - MSNBC shows, etc what internet websites like Huffington post he visited and which articles he read on internet ,etc.What his facebook and Twitter post says. Ultimately we all know the answer.

It will, however , have a profound impact , if DOJ will issue a statement, based on FBI investigation, that a hateful rhetoric by the media, the images of President of USA being decapitated and the Broadway show promoting the Killing of A President radicalized Hodgkinson to a point that he decided to kill people based on their party affiliation.

The absence of such a finding will result in the copycat acts of Terror and the blood of victims of those future Terrorist acts will be on the hands of FBI agents handling this investigation.

There was a FISA Warrant Application to wiretap Michael Cohen. Application was to be submitted to FISA Court shortly after Election in November of 2016 and AFTER FBI Terminated Steele's employment. The only evidence in support of surveillance President Elect's Attorney was Steele's report of Cohen's Prague meeting. The different Michael Cohen Prague visit was not a Coincidence. It was necessary to justify the FISA Warrant application. The plan was scrapped after my November 2016 Memo. I believe the FISA application did make it's way to FISA Court Clerks office and was withdrawn on November 18th, 2016. I think that Comey should be confronted with questions such as

1. Was there ever an application prepared to FISA court to wiretap Michael Cohen?
2. Did FBI went through with such an application?
3. Why not?

I am pretty sure he will not answer those questions, but not denying it would be enough for you to understand the scale of FBI-CIA-NSA-DNS op against Trump. They saying that Russian Card was planned to be used against Trump, should he declined to concede the loss. It is not true. There was no reason for any pressure on Trump should he lose and not concede. He didn't have to concede if he lost for Hillary to be certified a winner. They planned to use the Russian Card against Trump should he win.

In order to investigate any possible crime, especially a possible conspiracy to undermine the election results, illegal spying into a Presidential campaign or a Coup d'etat - there is a need for investigative tools.

The FBI has such a tools. The Spesial Council has such a tools. The US Attorney's office do. Even the DOJ IG has some of those tools, although way less then others. Last time I checked the "Team" of individuals around AG has NONE.ZERO. Under Constitution such a team can not subpoena anybody's bank records. Or order Surveillance on anybody. Or even request a simple phone records and emails of any individuals even if those records are in possession of DOJ itself. Unless AG Barr is planning something absolutely genious- looks like He is doing everything he can to bury the investigation into attempted coup. And then, of course, his 4 page letter would be manifested as a flag of his independent approach. He was impartial when dealing with accusations against Trump and he is impartial when finding no evidence to support any irregularities in ordering spying on Trump. And then nobody would dare to ask - how could you find any evidence if you have no investigation power?

Collins says it all started on November 16th, when he was elected. Looks like Nov 16th date is in his head

My April 23, 2017 text to members of 6 Eyes was a refference to 5 Eyes meeting that Comey attended and one extra eye watching

Someone paid attention to my January 23, 2016 text

The order was issued not just to share info on Trump campaign.

If that would be the only case, it would be signed long before. Clapper needed to have Brennan and Comey to have immediate access to my and similar to mine communications.

In April of 2018 I texted and emailed that President Trump was making a mistake by picking up Haspel as CIA director. She is a Brennan's man and first thing she will do is destroy all the OBL files, I continued. Someone deleted those texts and emails. It definitely was not me

Brilliant move with Epstein. Paulsen attack variation. Sacrificing queen for check mate.

I only have one favor to ask from you. Once this is over - please allot 2.5 hours of your time for a chess game. I am pretty sure I would be able to learn a lot from you.
